

HAZARDWISE

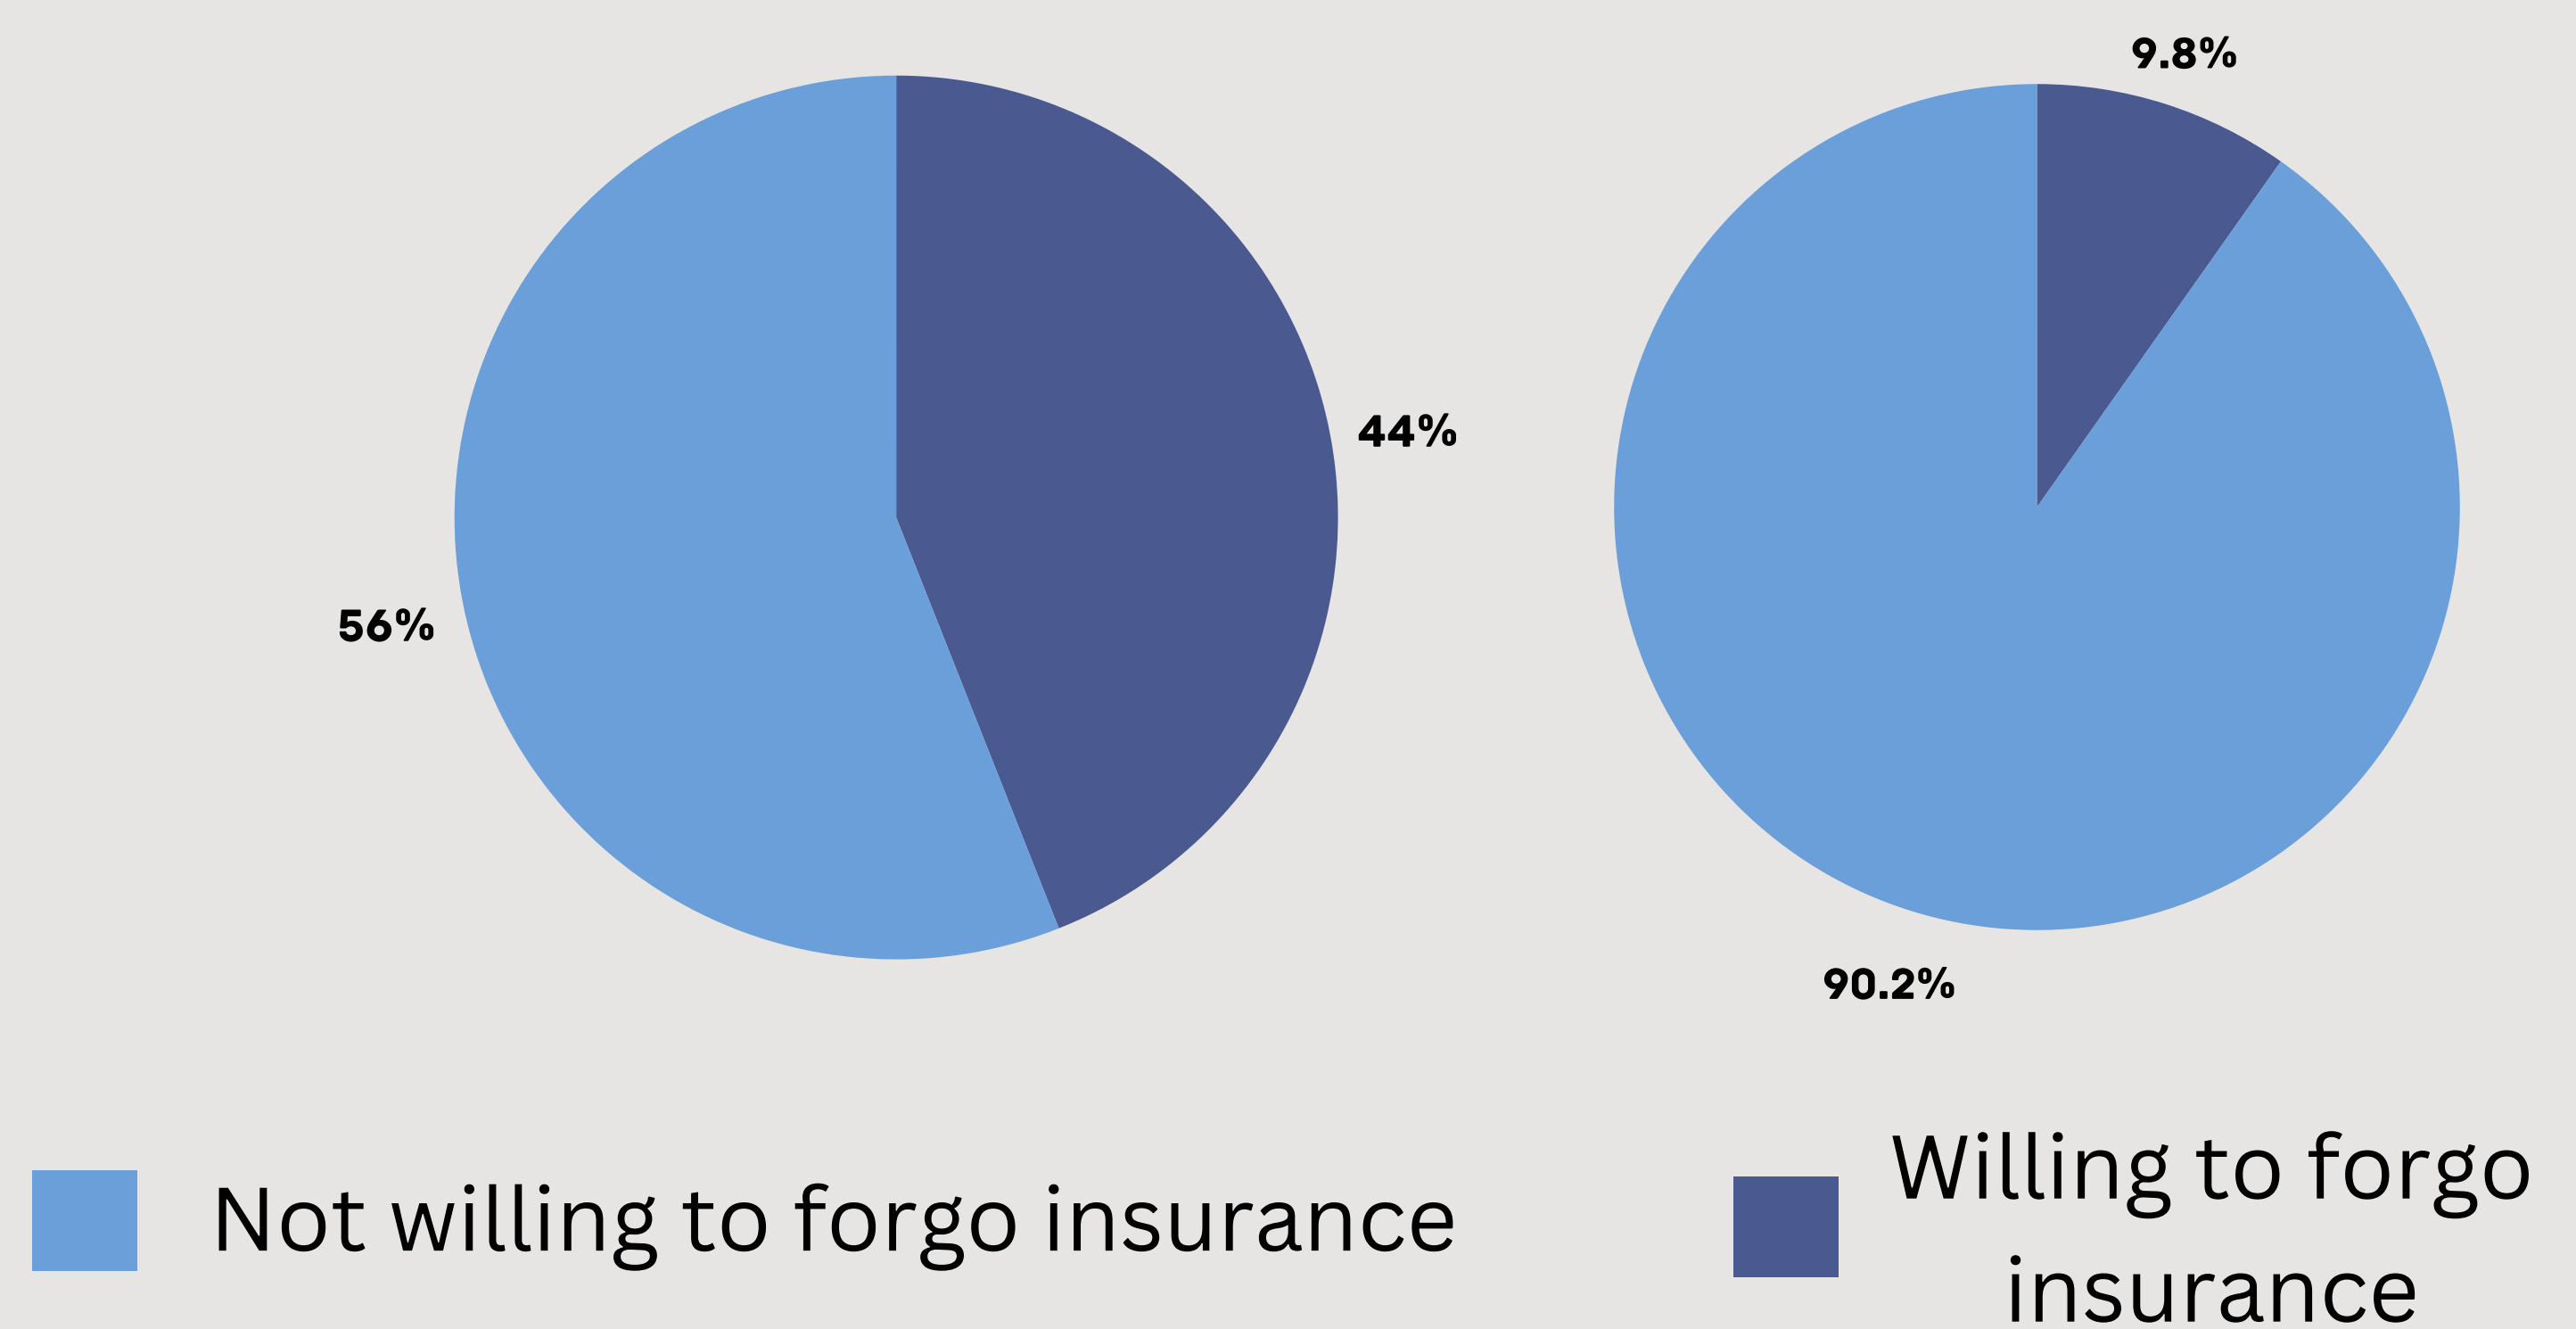

HOW MIGHT WE HELP HOMEOWNERS MINIMIZE THE COST OF RECOVERING FROM FLOODING IN THEIR AREA?

KEVIN LOU, KEROD GEBREYOHANNES, DAVID SMITH,
JONATHAN THONG, JOSHUA THONG

WHAT DO WE DO?

- Utilizes eight different data sources to get the most detailed information on a home
- Assesses the risk of flooding for the specific property based on historical and simulation data
- Provide data to the public via government licensing

TRACTION EXPERIMENT: DATA-DRIVEN DECISIONS

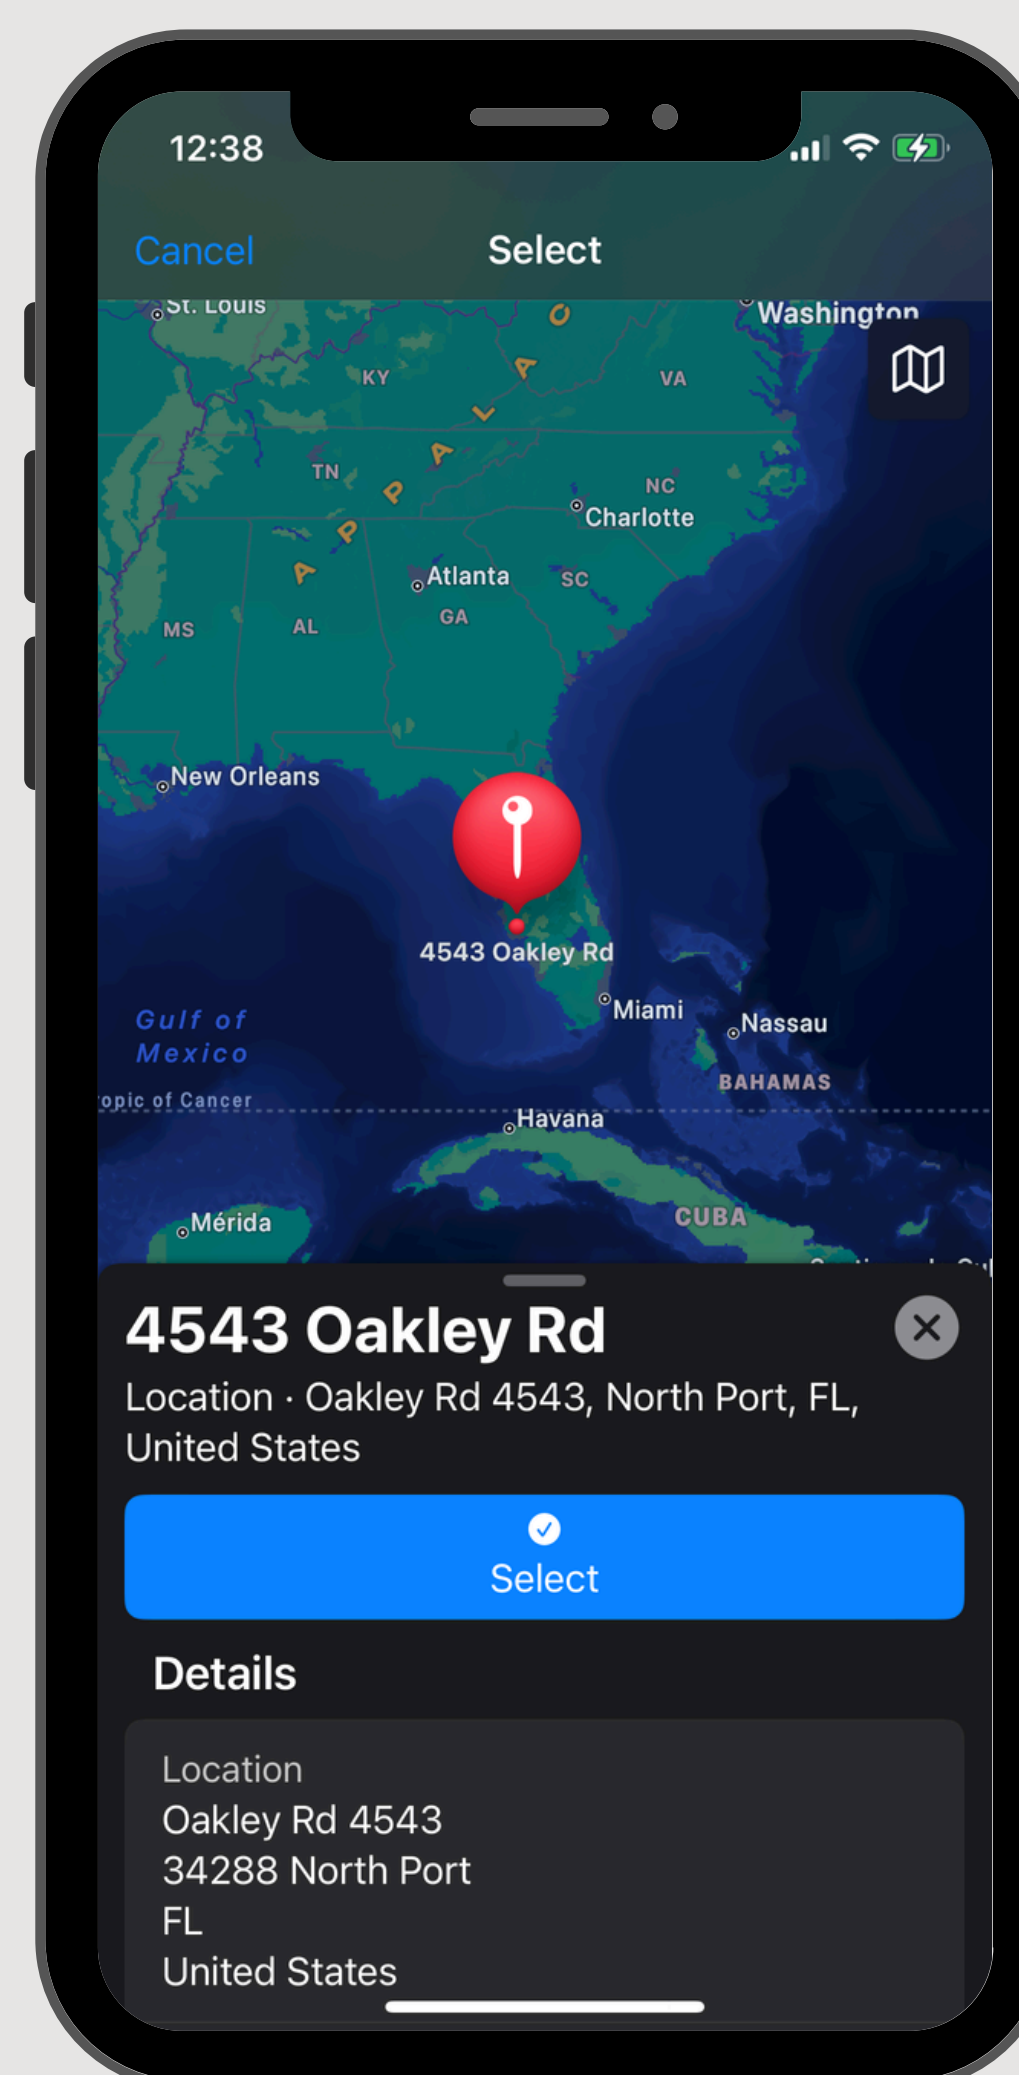

WHAT MAKES US DIFFERENT?

- Proprietary algorithm based around NVIDIA Earth 2 in a rapidly changing climate
- Robust and reliable dataset to ensure accurate weather prediction and analysis
- Agile team prepared to utilize the latest technology to ensure timely predictions for homeowners

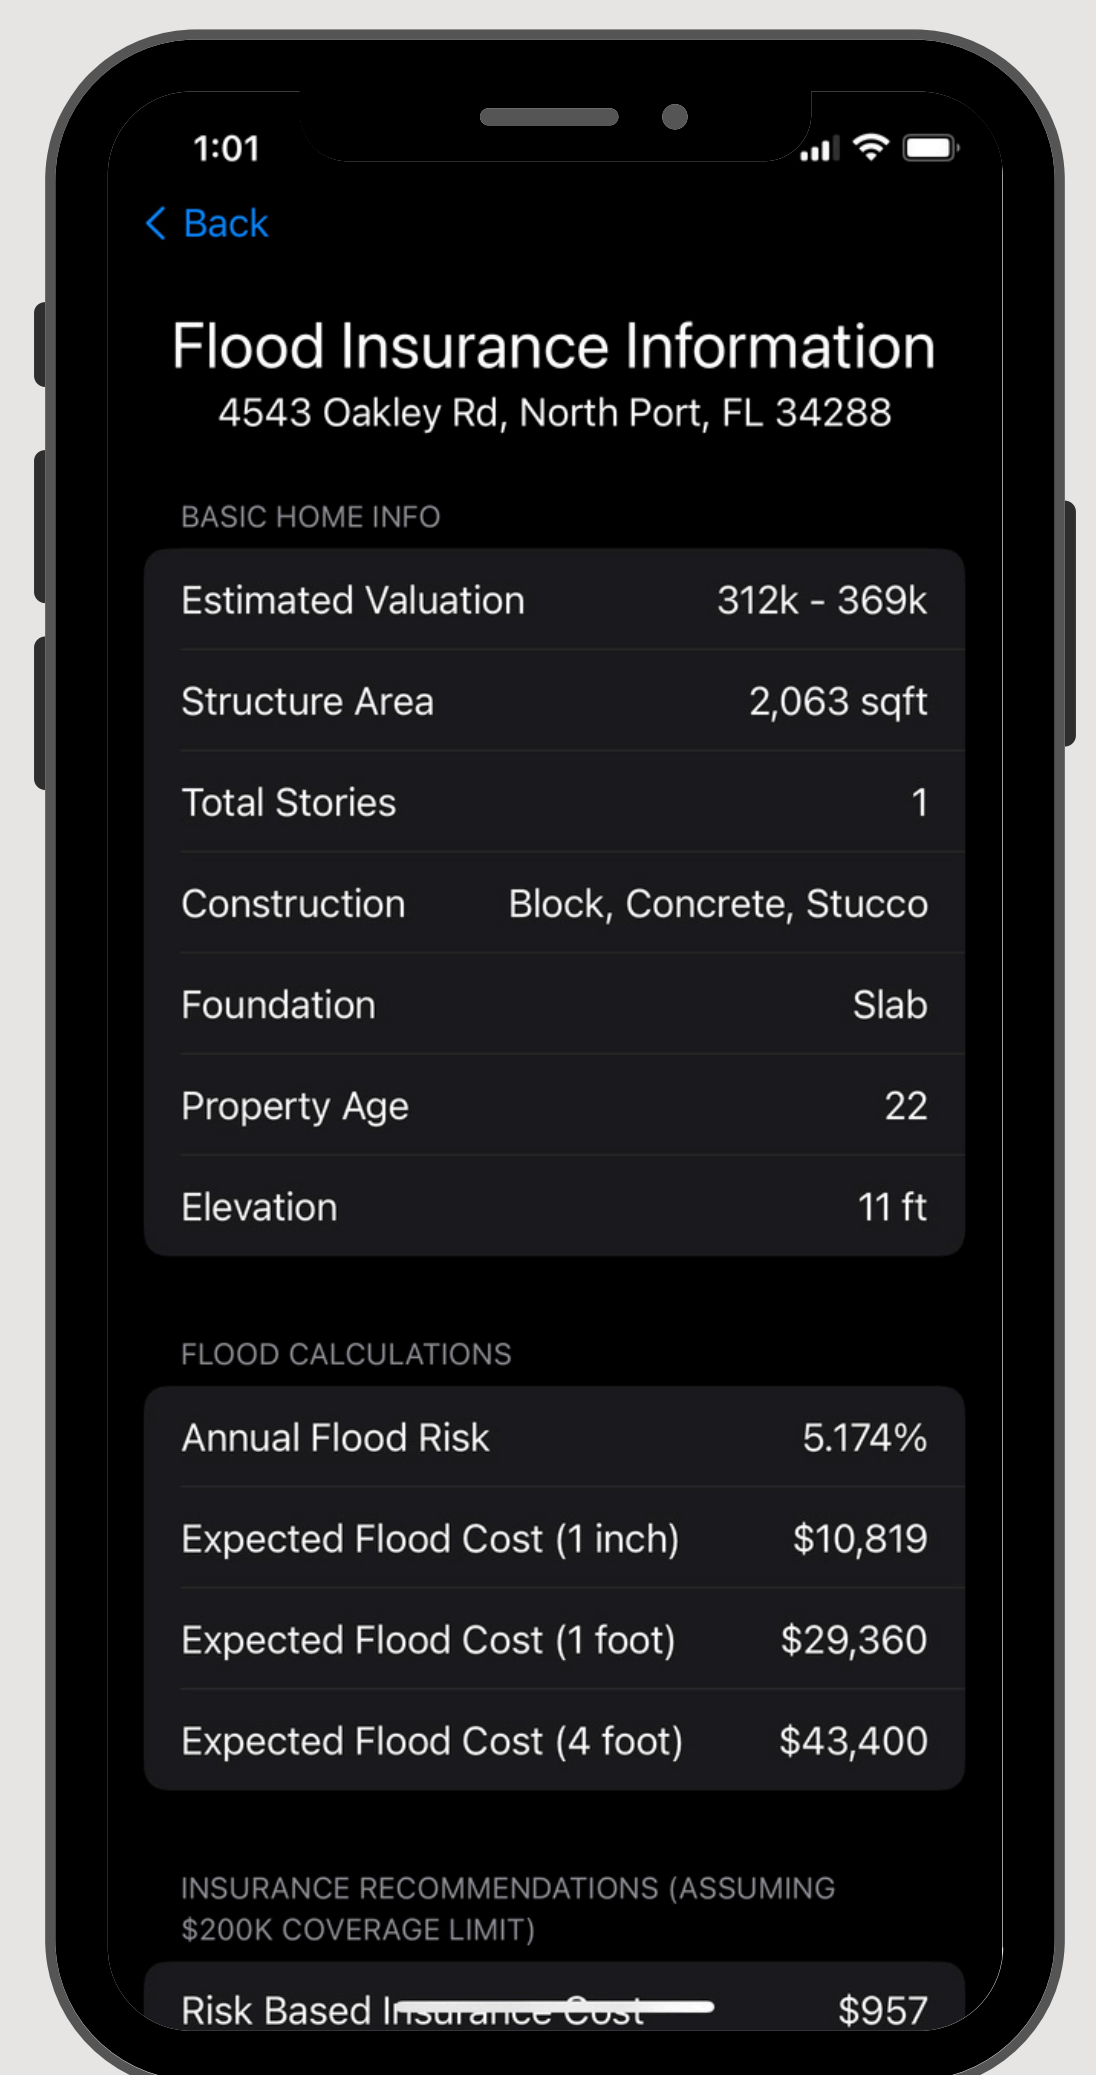

DEMO

FUTURE PLANS

- License product to governments
- Improve algorithm via NVIDIA Earth-2
- Expand to more natural disaster events
